

The Muse Interview Guide

Thanks for participating in your company shoot for The Muse. We will interview you for about 30 minutes, and your answers will be used to create 1 minute videos about the culture of your company and your role. To prepare, please review the questions below. It's best not to script the answers, but if you want to come up with some example stories to answer them, that would be great.

These are the questions you'll be asked:

1. Introduce yourself by saying your name, title, and why you chose to work here.
2. In basic terms, what does this company do?
3. What does the company value, and what does that mean to you?
4. Tell me about your background and how you ended up at this company.
5. What is your role? How would you describe your job to someone who's not familiar with the company?
6. How does your work impact the company?
7. What is one of your favorite projects or accomplishments during your time here?
8. What do all of the employees here have in common?
9. What's surprised you most about working at this company?
10. What's your favorite company perk or tradition?
11. What are you most excited about for the future of the company?
12. Why would a job seeker want to work here?
13. Repeat your introduction: say your name, title, and why you chose to work here.

Interview Guide (continued)

What to wear

We encourage employees to dress as they would on a normal workday. For interviewees, we recommend solid colors, as opposed to patterns. Here are a few great example outfits:
